

IoT Solutions World Congress 2017

Barcelona, Spain
03 - 05 October 2017

The IoT Solutions World Congress is the leading international event that links the Internet of Things with industry. On its second edition, the event doubled the figures registered on its inaugural one, with 172 exhibiting companies and over 8,000 attendees from 70 countries.

The next edition of the IoT SWC will take place on 3 – 5 October 2017 and will offer a highly international environment with more than 10,400 visitors. The event will focus on IoT solutions for industries and use cases in six dedicated areas: **Manufacturing, Energy & Utilities, Connected Transport, Healthcare, Buildings & Infrastructure, and Open Industry (Retail, Agriculture, Mining, Hospitality and other industries)**. Join the IoT SWC 2017 to see keynotes from top experts in the industry, who will discuss the opportunities offered by IoT technology as well as its transformative role in the business world.

The event will also offer multiple networking opportunities and activities, such as our IoT Solutions Awards Gala, a Hackathon, side events organized by event partners, etc. In the exhibition floor, more than 200 companies will showcase their latest IoT innovations, highlighted by our live-demonstration Testbed area.

Whether you are an enterprise end user, an organization looking for sales leads, a researcher, an association member, or a developer, the IoT Solutions World Congress offers a high return on investment.

The event is organized by Fira de Barcelona in partnership with the Industrial Internet Consortium, the Industrial IoT organization founded by AT&T, Cisco, General Electric, IBM, and Intel to bring together organizations and technology with the goal of accelerating the growth, adoption, and widespread use of industrial IoT.

More details about the event can be found at: <http://www.iotsworldcongress.com/>
